

AIRQUAL-1 Breathing Air Quality Test Kit Annual HealthCheck

“The Protégé ZM vs the GasBadge Pro replacement provides you a saving of £294 at the end of every 2 year period”

Maintain the accuracy and reliability of your AIRQUAL-1 for carrying out testing of compressed breathing air lines in compliance with BS EN12021

What are we offering?

For only £115.00*, the HealthCheck gives your AIRQUAL-1 a full MOT.

What's included?

It includes a full system check, flow meter calibration, new Protégé ZM O₂ detector and free fitting.

Upon upgrade to the Protégé ZM, a1-cbiss will complete the AIRQUAL-1 modification as part of the HealthCheck.

(The Protégé ZM cannot just simply be put in place of the GasBadge Pro inside the AIRQUAL-1 kit).

Can I keep my GasBadge?

If you prefer to remain with the GasBadge Pro O₂ gas detector, the cost of a replacement is £198.00 every two years.

The GasBadge Pro will not be a major stock item and lead time can be up to 6 weeks upon order placement.

As the GasBadge Pro requires calibration, you will need to order calibration at a cost of £30.00 (Order code: RTW-1GAS Single Gas Detector) in addition to the cost of the annual health check.

What is the Protégé ZM?

We are now supplying the Protégé ZM into the kit – a 2 year disposable Oxygen (O₂) detector within the AIRQUAL-1 Breathing Air Quality Test Kit instead of the GasBadge Pro O₂ gas detector.

The Protégé ZM O₂ detector from Scott Safety is an easy-to-use, zero-maintenance gas detector that delivers high performance in a small, ergonomically designed package.

Do I need an annual HealthCheck?

BS EN12021 stipulates that anyone supplying compressed breathing air has a duty of care to their employees to ensure that the breathing air they are supplied with is adequate for the respiratory device they are using and safe to breathe.

a1-cbiss recommend an annual HealthCheck for the AIRQUAL-1 to ensure the testing kit is operating efficiently and providing accurate results.

Order Codes

RTW-AQMAJOR – AIRQUAL-1
Calibration and Protégé ZM replacement £115.00
(Full calibration of the AIRQUAL-1 and a new Protégé ZM O₂ detector (required every two years))

RTW-AQMINOR – AIRQUAL-1
Yearly HealthCheck £49.00. HealthCheck only.
Does not include calibration of any O₂ detector

Protégé ZM
