

GASTEC

Gas Sampling Pumps

GV-100S

Using just one Gastec precision sampling pump and your choosing of over 500 tube types you can sample any gas from Acetaldehyde to Xylene

- ✓ **Designed for single stroke operation - no repetitive operation needed**
- ✓ **Uniquely designed with a smaller diameter for a quick and simple handle release**
- ✓ **Advanced non-sparking design and superior features**

GV-110S

The Gastec Sampling Pump is used in conjunction with Gastec Detector Tubes to draw a sample of hazardous gas across the chemical reagent within the tube such that a change produced is proportional in length to the concentration.

a1-cbiss supply two piston style Gastec gas sampling pumps:

- GV-100S
- GV-110S

The GV-110S features an automatic sampling counter which indicates how many pump strokes have been completed.

KEY BENEFITS

- **FAST Delivery, Same Day Dispatch** - We can deliver your Gastec gas detector tubes to your UK site for the next working day*
- **Lowest Cost** - Our price match guarantee means that we'll beat any like for like quote
- **Widest Range of Tubes** - a1-cbiss hold stock of 99% of Gastec gas detector tubes giving our clients plenty of choice
- **Pump Trade-In Programme** - Send us your competitor brand pump and we'll provide you with a new Gastec pump
- **Technical Sales & Customer Service Team** - Here to help with your gas detection requirements

FLOW FINISH INDICATOR

The flow finish indicator on the end of the handle automatically shows once the stroke is complete. When the white disk pops out the prescribed volume has been fully drawn.

SOFT-GRIP CYLINDER

The pump body is covered with a non-sparking soft elastomer with the middle portion narrower than the ends ensuring a firm grip on the pump cylinder

DIAMOND TIP TUBE BREAKER

Diamond tip cutter enables easy, convenient and safer breaking of the detector tube tip. Stores up to 20 tip ends

LIGHT PULL HANDLE

Small diameter allows handle to be pulled out with less effort and more accuracy than bellows-type pumps

STRAP

Hook this strap around your wrist when using the pump in areas such as a tank or over a sewage line where you may drop it

DETECTOR TUBE

The Gastec gas detector tubes enable detection of gases and vapours to be measured easily and accurately
